**SCIO Health Analytics® Named a Contender in First IDC MarketScape
on U.S. Healthcare Payer Fraud, Waste, and Abuse Solutions**

WEST HARTFORD, CT, July 7, 2014 – SCIO Health Analytics®, a leader in actionable healthcare analytics solutions, today announced that the company was named a Contender by IDC Health Insights in the recently published report, "IDC MarketScape: U.S. Healthcare Payer Fraud, Waste, and Abuse Solutions 2014 Vendor Analysis," (May 2014, IDC Health Insights Doc #248079).

"Our inclusion in IDC's MarketScape report validates SCIO as a serious and significant player in FWA, and reinforces the importance of complete solutions like SCIO Mine™," said Siva Namasivayam, CEO, SCIO Health Analytics. "SCIO is excited and proud to be included among some of the most well-established brands in the space, and we look forward to further strengthening our position in this very important area."

About IDC MarketScape

IDC MarketScape vendor analysis model is designed to provide an overview of the competitive fitness of IT, telecommunications, or industry-specific suppliers in a given market. The research methodology utilizes a rigorous scoring methodology based on both qualitative and quantitative criteria that results in a single graphical illustration of each vendor's position within a given market. IDC MarketScape provides a clear framework in which the product and service offerings, capabilities and strategies, and current and future market success factors of IT, telecommunications, or industry-specific vendors can be meaningfully compared. The framework also provides technology buyers with a transparent foundation to allow companies to independently compare the strengths and weaknesses of current and prospective vendors.
