SCIO Health Analytics® Named to Inc. 5000 List of Fastest-Growing Companies for Third Consecutive Year

Company also named among the top 20 Connecticut companies

WEST HARTFORD, CT, August 21, 2014 – SCIO Health Analytics®, a leading provider of actionable healthcare analytic solutions, was named to the 2014 **Inc. 5000** list of fastest-growing private companies for the third consecutive year. The company received a ranking of 1,055. In addition, SCIO® also was named among the top 20 Connecticut companies, ranking eighth.

“We are proud and honored to once again be included on this prestigious list of companies,” said Siva Namasivayam, CEO, SCIO Health Analytics®. “Our inclusion proves that there continues to be a growing need for the solutions we offer – from care and risk management and payment integrity, to consumer and employer, and network and provider.”

Inc. magazine President and Editor-in-Chief Eric Schurenberg noted that “for 33 years, *Inc.* has welcomed the fastest-growing private companies in America to a very exclusive club. The average company on the list grew a mind-boggling 516 percent. Those are results most businesses could only dream of.”

Market for Healthcare Analytics Growing

Namasivayam cited a recent report that stated the market for healthcare analytics is projected to increase at a 25 percent compound annual growth rate between 2014 and 2019. “We believe the company is positioned to leverage the growing demand for our actionable, technology-enabled solutions as healthcare mandates such as the Affordable Care Act, ICD-10 and Meaningful Use further drive the use of analytics in healthcare.”

About SCIO Health Analytics®
