SCIO Health Analytics™ Ranked 173 Among Fastest Growing Companies in North America by Deloitte's 2013 Technology Fast 500™

Attributes Revenue Growth to Providing Insight into Data Analytics

WEST HARTFORD, CT, Nov. 13, 2013 — SCIO Health Analytics™, a leader in actionable healthcare analytics solutions, today announced it ranked 173 on Deloitte's Technology Fast 500™, a ranking of the 500 fastest growing technology, media, telecommunications, life sciences and clean technology companies in North America.

SCIO Health Analytics™ CEO, Siva Namasivayam, credits the company's thought leadership and delivery in actionable analytics as the catalyst for its growth. "The transformation that has taken place within the healthcare industry over the past few years has demanded innovative solutions that are flexible, actionable and produce tangible results. As a result, our clients' have benefited from SCIO's ability to provide tangible benefits to real world problems through advanced data and analytics and our highly flexible and cost effective approach to the market."

"The 2013 Deloitte Technology Fast 500 companies are exemplary cases of those spurring growth in a tough market through innovation," said Eric Openshaw, vice chairman, Deloitte LLP and U.S. technology, media and telecommunications leader. "This year's list is a who's who of companies behind the most exciting and innovative products and services in the technology space. We congratulate the Fast 500 companies and look forward to what they do next."

"The fastest growing companies in the US are drivers of constant innovation and operate with the agility to stay ahead of a quickly evolving marketplace, and software, biotech/pharma and internet companies continue to be at the forefront," added James Atwell, national managing partner of the Emerging Growth Company practice, Deloitte Services LP. "The companies excelling in these sectors have a startup mentality that allows them to be nimble and adapt quickly, which is why they consistently lead the list of fast-growing companies each year."

SCIO Health Analytics™ has rapidly expanded its delivery of data-driven analytics solutions to a marketplace eager for actionable insights and outcomes from the volume of data available in healthcare today. The company is positioned as a complete solutions partner, with a suite of core analytics solutions that impact healthcare cost and quality.

Overall, 2013 Technology Fast 500™ companies achieved revenue growth ranging from 137 percent to 208,897 percent from 2008 to 2012, with an average growth of 2,600 percent.

About Deloitte's 2013 Technology Fast 500™

Technology Fast 500, conducted by Deloitte LLP, provides a ranking of the fastest growing technology, media, telecommunications, life sciences and clean technology companies – both public and private – in North America. Technology Fast 500 award winners are selected based on percentage fiscal year revenue growth from 2008 to 2012.

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company's operating revenues. Companies must have base-year operating revenues of at least \$50,000 USD or CD, and current-year operating revenues of at least \$5 million USD or CD. Additionally, companies must be in business for a minimum of five years, and be headquartered within North America.
